AN INSIGHT INTO THE PRESENT STATUS OF **INTELLECTUAL PROPERTY RIGHTS**

Talent considers a wide range of factors such as behavior, creativity, performance, special ability or even potentiality in many areas of worthwhile Human Endeavour. Friends, you the intellectual property in its literal sense means, the things that originate from human brain this creation of human is considered to be the most invaluable asset, when compared to the moveable and immovable properties.

Intellectual Property plays an important role in an increasingly broad range of area raising from the internet to health care to nearly all aspects of Science and Technology and Literature to Arts, in advancing society today.

Intellectual Property surrounds us in nearly everything we do. At Home, at School, at Work, at Rest and at Play, no matter what we do the fruits of human creativity and invention surrounds us.

Today, possession of land, labour and capital are just not enough for a country to succeed. The creativity and innovation are the new drivers of the world economy. The policies adopted by a Country shall determine the nations we being and further ras to how it is developing the trapped intellectual capital. An effective property system is the foundation of such a strategy.

With the knowledge based innovation driven economies, the intellectual property system is a dynamic tool for wealth creation providing an incentive for enterprises and individuals to create and innovate, a fertile setting for the development of and trade in, intellectual assets and a stable environment for domestic and foreign investments.

World Intellectual Property Organization (WIPO)

World Intellectual Property Organization has been established to promote the use and protection of work of the human spirit. These works intellectual property and expanding the bounds of science and technology and searching the world of the arts. WIPO plays an important role in enhancing the quality and enjoyment of life, as well as creating real wealth for nations.

The establishment of the World Trade Organization (WTO) has further enhanced a major metamorphosis for global trade in the new millennium. The WTO is bringing about sweeping changes in both composition and complexity of international trade and development. There is visible global interdependency for establishing trade links and creating a strong web by integration.

Intellectual Property is one of the most important aspect of the WTO regime and it has far reaching implications. Agreement of Trade related Intellectual Property Rights better known as TRIPS to which our Country is a signatory is an Integral part of WTO and it will have an enormous impact on the business of our

Country and trade partnerships. Accordingly, our country has complied its obligations by amending existing legislations with respect of IPRs i.e., Intellectual Property rights. It is a well exiting to note that in our Country though only of late, awareness about the intellectual property rights is on the increase.

It is not material wants that seek ownership, but the ideas, skills and moral aspirations that need equal protection it refers to the creation of the mind, intentions, literacy and juristic works, symbols, names, images and designs, used in the commerce and trade.

Our Country falling one among the developing countries have miles to goes she has a vulnerable collections of traditional, oral, folklore, customary, agriculture and native culture etc. besides not having much wealth and infrastructure lack of awareness of intellectual property rights among all strata's of people, is a major setback to a developing country like ours. Aggressive and targeted patenting is the need of hour.

Today, very few think on doing business without a brand name, trade mark and every one thinks of protecting their intellectual achievements in Arts as well as in computer skills through copy rights. More and more, inventors engaged in research, are seeking patents for their new products of popular use and public utiltiy. There is a clear twist in all professions and trades

to deliver goods superior quality and render services of higher order.

Intellectual properties includes patents, designs, trademarks, copy right, confidential information Trade secrets and know hows. A knowledge of the Intellectual Property Law is essential to all those, who are involved in business and industrial activities. The law relating to these aspects are the same substantially, in all countries with variations to suit the national requirements of each nation. As the Piracy of Intellectual Property is common phenomenon worldwide which hampers the interest of the true owner of the Intellectual properties.

Thanking you for patience.

M.A. LL.M.,
Professor Emeritus in Law, Belagavi

FACULTY DEVELOPMENT PROGRAMME – BY BHARATI SUKHATANKAR

18th March 2019

SESSION 1

INNER GROWTH

- The balance of life - NOT TOO LOOSE, NOT TOO TIGHT – JUST RIGHT
- Ego and assumptions create misunderstandings.
- Your individuality is made up of 3 aspects –
 - 1) Looking good
 - 2) Feeling good
 - 3) Being good
- DROP IT –
 1. Your regrets of the past
 2. Your anxieties of the future
 3. Grudges, resentments ... etc.
- * WHAT comes to you in life is not in your hands,
HOW you deal with it, is.

SESSION 2

TEACHER AS A COMMUNICATOR

- Teacher as a role model
- Encourage creativity as well as inculcate creative ways of teaching
- Do not compare students, encourage individual talent
- Understand the underachiever ☐ Explain , don't insult or punish
- Encourage them to be helpful
