COLLEGE POLICY ON FEEDBACK MECHANISM

The management of R.P.D. College of Arts and Commerce believes that the performance of the college is fundamentally dependent on effective learning outcomes. Feedback mechanism is an essential and effective tool to know whether the college has been imparting quality education to the students. Hence, the College has made a policy to avail feedback from different stakeholders and to analyse the institutional performance on different fronts.

The IQAC developed a Feedback mechanism and structured framework for its analysis. Feedback forms are circulated to all the stakeholders i.e., Students, Teachers, Alumni and Employers, duly filled feedback forms are then forwarded to the IQAC for analysis. The Feedback analysis report is forwarded for the process and action.

Feedbacks are to be collected under the following broad heads:

1. Feedback on curriculum: Feedback on curriculum and teaching is taken from all the stakeholders to analyse the effectiveness of the existing curriculum and to suggest alteration or modifications if required. Such suggestions are forwarded to the teachers who are members on Board of Studies (BoS) of affiliated University for consideration, as and when revisions are undertaken.
2. Feedback on curriculum delivery: To maintain teaching quality each teacher's feedback is taken from students and the same is forwarded to the IQAC for analysis. Based on this analysis, the Principal take appropriate steps to improve the quality of teaching – learning process.
